PLACEMENT BROCHURE

ABOUT THE UNIVERSITY

Punjab Assembly established Punjabi University, Patiala under the Punjab Act No. 35 of 1961. Dr. S. Radhakrishnan, the then President of India laid foundation of Punjabi University on June 24, 1962. He preached, "The institutes of higher education share the burden of nation-building in a critically important sense. Our aim is a strong, free and democratic India where every citizen has an equal place and full opportunity of growth. In this task, a vast responsibility rests on our universities." Established on April 30, 1962 in the erstwhile princely state of Patiala with the main objective of furthering the cause of Punjabi language, art and literature, Punjabi University has since evolved into the largest University in the state. This is the second University in the world to be named after a language, the first being Hebrew University of Israel. Its vision is to establish and incorporate a University for the advancement of Punjabi studies and development of Punjabi language as a medium of instruction or otherwise for providing instruction in humanistic and scientific subjects and generally for the promotion of education and research. The University started working from its present lush green, pollution free, 316 acres campus since 1965.

Initially University's jurisdiction area was fixed as the 16 km radius having only 9 colleges. In 1969, it grew into an affiliating university, with 43 colleges affiliated to it. Now the university caters to the educational needs of nine Districts of Punjab. Over the time since its inception, the University has evolved into a multi-faceted and multi- faculty educational institution for the promotion of higher education and research in Humanities, Arts, Sciences, Engineering Languages, Technology and many more. Spread over 600 acres of land, its 1500+ teachers are imparting instruction andguidance to nearly 14,000+ students in a multi-faceted, multi-pronged and multi- faculty environment comprising 70+ Teaching and Research Departments/Chairs on its Campus, 27 Regional Centre/ Neighbourhood Campuses/Constituent Colleges and 274 Colleges affiliated to it.
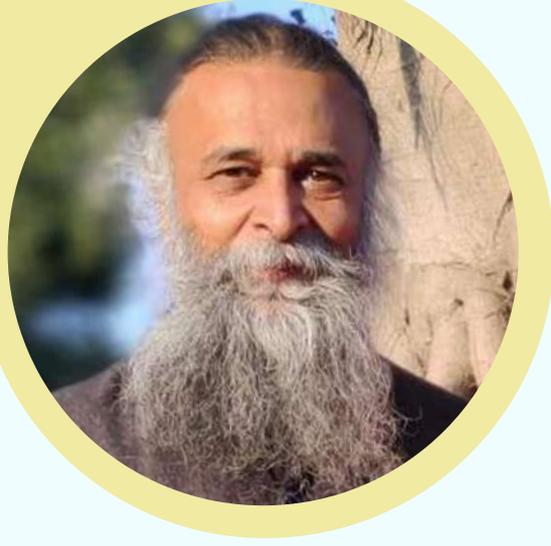

VC'S DESK

Punjabi University, Patiala has established itself as one of the most esteemed institutes of India. Our alumni have proven their mark at national and international levels, and their accomplishments stand testimonial to our endeavours and their determination.

Established in 1962, Punjabi University is endowed with a mandate to further the noble cause of Punjabi language, literature and culture. In this endeavour the University has stood the test of time. It has been promoting and nurturing Punjabi language, literature and culture through Department of Development of Punjabi Language, Department of Punjabi Literary Studies, Department of Punjabi, Department of Linguistics and Punjabi Lexicography, Centre for Technical Development of Punjabi Language, the Departments and Centres devoted to Sikh Studies, Gurmat Sangeet and the Performing Arts. In addition, significant contribution to this end has been made in the shape of the teaching of Punjabi as a foreign language and the work on Punjabi Pedia. The University has not only contributed immensely to the development of literature and culture but has also emerged as a key institution for imparting teaching and for carrying out research in life sciences, physical sciences, medicine, engineering and technology, business studies, law, social sciences, languages, education, information sciences, and arts and culture.

Dr. Arvind

DIRECTOR'S DESK

I feel privileged and honoured to get an opportunity to serve as the Placement Director of Punjabi University, Patiala which is among the premier institutions of higher learning. It is one of the most esteemed universities in Punjab where we promised all possible support to the students and their parents and pray for their well-being and success.

Punjabi University, Patiala has perpetuated an admirable record for academic contribution towards achieving excellence in building enviable organizations & a stupendous society. The teachers here respect their duties and are always keen to support and impart knowledge to the students and nurture their skill set to make them asset for the organisations.

The students here are always welcomed with their innovations and new techno logies where they are also awarded and we are honoured to have such cream in our university. The compatibility of this university is hard because of the past achievements by our alumni and the selection of their talent by major companies like Apple, Google, Microsoft, IBM, Rolls Royce, Infosys, Larsen and Turbo, HDFC Bank, ICICI, SBI MF, etc.

We always welcome from the core of our hearts to the new bees who want to learn in the way our previous students learned.

Dr. Manjit Singh

OUR VISION

To be a role model in technical education and research, responsive to global challenges.

OUR MISSION

To impart qualitydevelops innovative professionals andtechnical education that entrepreneurs and to undertake research that generates cutting edge technologies and futuristic knowledge, focusing on the socio-economic needs.

FINISHING SCHOOL

Finishing School forms an interface between the students and prospective employers. The University realizes that long-term sustainability of relationship with employers for training and placement of students can only be achieved by grooming the students with the right kind of skill-set required for becoming successful employees or entrepreneurs. In this context, the needs of industry are assessed on a continuous basis and inputs provided to concerned departments in the form of internal feedback or through interaction with alumni as well as senior delegates from industry/premier educational and research institutions.
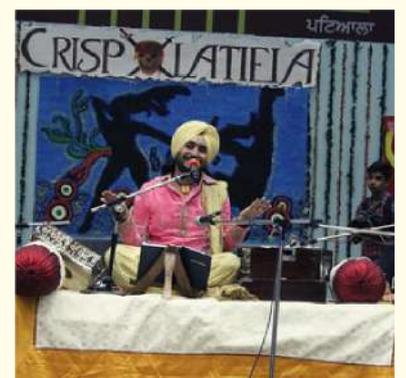

The Finishing School provides a central platform for honing the skills of students. A high degree of responsiveness in working is maintained through dedicated human efforts, coupled with application of information technology.

PLACEMENT PROTOCOL

The Placement Session begins in the month of August and goes up till June of the following year.

Invitations with the relevant information are sent to the various organizations by the Placement Cell.

Single Point of Contact (SPOC) is allotted to the organisation.

The details of the JNF are made available online to the students along with other information furnished by the organization. Interested and eligible students (as per the criteria specified by the company) show their willingness to appear in the recruitment process of the organization by registering with the Training and Placement Cell of the institute.

PLACEMENT PROTOCOL

The verified databaseof all such students is shared with the organisation through the Single Point of Contact (SPOC).

During campus recruitment, co nd ucting of pre- placement talks, tests, GDs, personal interviews etc. are coordinated and managed by the SPOC allotted to the company.

At the end, the organisation declares the list of the final offers either on-campus or through e-mail.

The Training and Placement Cell also coordinates the signing of offer letters by the students who have been selected.

RULES AND REGULATIONS

PLACEMENT INFORMATION

- The following information regarding placements may be disseminated to all concerned:

- **POLICY REGARDING JOINT CAMPUS PLACEMENTS**

❖ Prior to the completion of first round of placements, the students should NOT participate in any pool / joint campus placement drives conducted anywhere outside the University, without obtaining prior written permission from the Placement Cell. In case of shortlisting/selection, the concerned student(s) to intimate the Placement Cell immediately on receiving the information.

❖ The Placement Cell, at its own discretion and keeping in view the general interest of the University, may allow or disallow a student from participation in Joint Campus Placement Activities, held outside the University.

❖ These clauses, however, do not impose any restriction on participation in tests/interviews conducted by any wing of Indian Armed Forces, UPSC or any other Central or State Government Departments.

POLICY REGARDING MULTIPLE PLACEMENTS

Normally, any student who gets one confirmed offer or two tentative offers (viz. two simultaneous short-listings with pending confirmation), will not be allowed to participate in the subsequent recruitment activities till all eligible students receive job offers. This clause does not apply in the following circumstances:

❖ In case of a company coming to the campus on the condition of "Open Status..

❖ Students finding placement through the channels mentioned in clause 1.3 above.

❖ For certain reputed organizations doing business in a particular, specialized stream of engineering/sciences, the Placement Cell may provide "Open Status", thereby allowing participation of students from the concerned stream, who are otherwise already placed with some mass-recruiter company (viz. with an IT sector organization). In this regard, the following should be noted:

1. Such decision will be taken individually for the particular company visiting the campus and communicated to the concerned department/ students.

2. For such non-IT students, who are already placed with an IT company, but subsequently find placement in a company related to their field, the previous placement (in the IT sector company) shall stand cancelled.

TESTIMONIALS

I got my undergrad in Computer Science from Punjabi University. It is one of the very few institutions for engineering where academic excellence, shaping up for exposure to the best job opportunities and readying for a globalized success are intrinsic to the model of engineering education provided to the students. The professors are world class and really dedicated to helping students realize their fullest potential. Academic rigor and fundamental building are all part and parcel of the academics. I forever owe my gratitude to my alma mater and carry their flag with pride wherever my professional journey takes me.

Vishav Vir Singh Manager, Product Technology Operations

Google

I did my MTech (CSE) at Punjabi university in 1997. It was a great experience and honor to be taught by world class teachers like Dr Lehal, who guided me on my research project as well. I went on to write and present research papers at internationally acclaimed journals like IEEE. Punjabi university provided me a platform to appear for placement Opportunity and was able to start my career @ Newgen Software. I wish the future students and placement cell at Punjabi University all the best!!
